

## **Environmental Policy Statement For Arnold Air Force Base**

### **“Environmental Stewardship Today for Tomorrow”**

Protecting and preserving our environment for future generations is a key component of our mission at Arnold Air Force Base. We accomplish this by doing the following actions:

- We comply with all federal, state, and local environmental regulations.
- We protect, preserve, and manage our natural and cultural resources.
- We use cost effective alternatives to reduce the use of hazardous materials and have a prevention of pollution program to reduce wastes and emissions.
- We are committed to the continual improvement of our processes within the framework of an Environmental Management System (EMS).
- We establish objectives and targets to reduce the environmental risks associated with our past, present, and future mission activities.

In partnership with federal, state, and local regulators, the public, and our customers, we protect our environment while carrying out our mission in support of the nation's defense. Each of us must be stewards of the environment so our children and grandchildren will prosper.

A handwritten signature in blue ink that reads "David L. Stringer".

DAVID L. STRINGER, Brig Gen, USAF  
Commander
